

SUB DISTRIBUTION LABOUR ONLY BUILD SERVICE

Here at **AMA Switchgear Ltd** we offer a labour only build service to customers wishing to supply sub distribution products knowing they have been manufactured and tested in-line with current standards, our service ensures that the panels you are supplying are safe and ready for final use.

HOW WE WORK

You source and supply the required materials & info to our team who will manufacture the panels to your requirements.

WHAT YOU GET

Once our team have completed your build the panels can be shipped to a UK location of your choice using standard couriers. You will have peace of mind knowing your panel has been built and tested in-line with the current standards.

NEED ASSISTANCE

Our team can also assist you with picking the required parts and supply engineered drawings if required.

WHAT ARE THE BENEFITS?

- Your workforce are free to work on more profitable / time sensitive parts of the project
- Panel built in-line with current standards and the confidence given that the panel will work how it should.
- Fixed price for panel builds which usually have the higher risk or labour overrun.
